## Included Item

<b>Item</b>	HT808 PRO
-------------	-----------

## Controls and Status

Power Button	Status	Buzzer
Long Press for 5 Seconds	Power On	One Short Beep
Quick Press 3 Times	Power Off	Two Short Beeps

## Specifications

Dimensions	95*65*1.6mm
Weight	8.6g
Range	Up to 262 ft (80m)
Battery	Li-MnO <sub>2</sub> Thin Cell, DC 3V
Frequency	2402~2480 MHz
Working Temperature	-20~60°C
Connectivity	Bluetooth

## Important Reminders

1. Battery life varies depending on individual usage habits. Frequent audible searching will accelerate the consumption of the battery.
2. The device uses a crowdsourcing network, which may delay the positioning. If there is no data on the management platform or APP, you can wait half an hour to refresh the location information. Try to open the device in places where there are more cell phones.
3. Please do not disassemble the device. Improper handling by non-professionals may cause damage to the device.

## Instructions for Use

- 1.To turn on the device: long press for 5 seconds.
- 2.Contact your distributor to download the device management APP and bind the device. When you bind the device, you need to turn on the Bluetooth of your cell phone and bring the TAG close to the cell phone for fast, convenient, and successful binding.

Note: Please do not immerse the battery in water or put it into fire, please do not destroy or force open the battery, the battery is disposable and does not allow charging! To protect the environment, please recycle the used battery.

**Attention:** Unbendable. Only For Use On Flat Surfaces.

WARNING

KEEP BATTERIES AWAY FROM CHILDREN

Swallowing may lead to serious injury or death in 2 hours, due to chemical burns and potential perforation of the esophagus.

If you suspect your child has swallowed or ingested a battery, immediately call the 24-hour Poison Information Centre for emergency specialists advice.

## FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference.

(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
