Introductions

The Track Tag Slim is your discreet and powerful solution for finding misplaced items, even from a distance. Its ultra-thin design slips easily into wallets, purses, and pockets, saving space without adding bulk. Engineered for durability, it's waterproof and features a long-lasting, non-replaceable battery with up to 3 years of life. A quick, simple setup allows you to pair the tag and instantly locate nearby items by triggering a sound.

Important reminders

1. Battery duration varies based on individual usage. Frequent use of the audible search function will accelerate battery consumption.
2. This device uses a crowdsourced network. Location updates may be delayed. If the management platform or APP shows no data, please wait approximately 30 minutes and refresh. For best performance, try to activate or use the device in areas with more cell phone traffic.
3. Do not disassemble the device. Unauthorized handling may cause damage.

Instructions for Use

1. Turn on: Quickly press the button. You will hear two short beeps, confirming the device is now on.
2. Contact your sales provider to download the official device management app. When you bind the device, you need to turn on the Bluetooth of the cell phone and bring the device close to the cell phone to make it convenient to bind it quickly and successfully.

Note: Do not immerse the battery in water or put it into fire. Do not destroy or force open the battery, the battery is disposable and non-chargeable! Please recycle used batteries in accordance with local environmental regulations.

WARNING

KEEP BATTERIES AWAY FROM CHILDREN

If swallowed, a battery can cause severe chemical burns and potentially perforate the esophagus within 2 hours, leading to serious injury or death.

If you suspect a child has swallowed or inserted a battery, immediately call the 24-hour Poison Information Centre for emergency specialist advice.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference.
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. FCC Radiation Exposure Statement
This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
